

Changing the game in infrastructure financing

## Job Description

### Chief Financial Officer (as Late Co-Founder)

Are you driven by entrepreneurial spirit, excited about the idea to participate in a game-changing business model in infrastructure financing and eager to make a positive impact in the world? Then join us!

#### About us

We are a global digital infrastructure sourcing platform for institutional investors. As a service provider to the financial and infrastructure industries we are matching initiators of large-scale infrastructure projects with institutional investors worldwide, focusing on projects which are not publicly tendered.

Our approach is unique in the market. We combine an artificial intelligence driven database with personal contacts on site all over the world and offer three closely connected services: deal sourcing, the development of portfolio ideas and finding syndication partners. By doing so, we are opening-up a new business model which perfectly complements the infrastructure investment value chain.

Currently, our database includes 540+ projects with a total value of USD 230 billion. Single projects usually start at a volume of USD 100 million. Many of these projects meet the criteria of a sustainable or an impact investment.

We are looking for a **Chief Financial Officer** (m/f/d) as late co-founder and shareholder.

#### What you'll be responsible for

- Manage the company's financial processes incl. planning and accounting
- Develop and manage an innovative funding strategy incl. screening and approaching potential funding partners / venture capital companies
- Make sure all necessary accounting reports and financial statements are provided in time
- Take an active role in budget planning, updating the business plan and guidance on business drivers
- Model different future scenarios for the company's development and the corresponding capital needs
- Track key KPIs and important start-up metrics

#### About you

- Experience in a senior finance role, also in a start-up environment
- Proven track record in successfully managing startup funding rounds would be a big asset
- Driven by entrepreneurial spirit: As a member of our core team and late co-founder the CFO is – like all members of our core team – required to acquire a stake in our company
- Academic education, preferably with a degree in Business Administration
- Excellent command of English (spoken and written)
- Team player and hands-on “can-doer” with sense of responsibility

#### Our offer

- A dynamic startup atmosphere with plenty of room for own ideas to develop a business which has the strong potential to become a market leader in a highly attractive market segment
- A team spread across all continents with highly diverse backgrounds
- Short communication and decision-making channels, cooperative and committed colleagues
- A success-based compensation model incl. Employee Stock Ownership Plan (ESOP)
- Full flexibility in choosing your work location

Excited about the offer?

We look forward to receiving your application to Ms. Tsion Keno, [keno@deutsche-infrastructure.net](mailto:keno@deutsche-infrastructure.net).
