

Changing the game in infrastructure financing

## Job Description

### Financial Analyst

Are you driven by entrepreneurial spirit, excited about the idea to participate in a game-changing business model in infrastructure financing and eager to make a positive impact in the world? Then join us!

#### About us

We are a global digital infrastructure sourcing platform for institutional investors. As a service provider to the financial and infrastructure industries we are matching initiators of large-scale infrastructure projects with institutional investors worldwide, focusing on projects which are not publicly tendered.

Our approach is unique in the market. We combine an artificial intelligence driven database with personal contacts on site all over the world and offer three closely connected services: deal sourcing, the development of portfolio ideas and finding syndication partners. By doing so, we are opening-up a new business model which perfectly complements the infrastructure investment value chain.

Currently, our database includes 540+ projects with a total value of USD 230 billion. Single projects usually start at a volume of USD 100 million, many of them meet the criteria of a sustainable investment.

We are looking for **Financial Analysts (m/f/d)** worldwide.

#### What you'll be responsible for

- Fundamental and risk analyses of infrastructure projects
- Contribute to presentations and publications on projects and markets, e. g. for clients or press
- Contribute to the preparation of client negotiations
- Interact with local infrastructure project initiators
- If required, assist in deal structuring

#### About you

- Located in an emerging market, as most of our projects are in those countries
- University degree or comparable qualification
- First experience in financial and risk analysis of companies and / or projects
- Ideally, first experience in infrastructure projects
- Excellent command of English (spoken and written)
- Team player, sense of responsibility, proactive and solution oriented

#### Our offer

- A dynamic startup atmosphere with a lot of room for own ideas
- A team spread across all continents with highly diverse backgrounds
- Short communication and decision-making channels, cooperative and committed colleagues
- Full flexibility in choosing your work location

Excited about the offer?

We look forward to receiving your application including your salary expectations to Ms. Tsion Keno, [keno@deutsche-infrastructure.net](mailto:keno@deutsche-infrastructure.net).
