

Changing the game in infrastructure financing

Job Description

Head of Portfolio Composition (as Late Co-Founder)

Are you driven by entrepreneurial spirit, excited about the idea to participate in a game-changing business model in infrastructure financing and eager to make a positive impact in the world? Then join us!

About us

We are a global digital infrastructure sourcing platform for institutional investors. As a service provider to the financial and infrastructure industries we are matching initiators of large-scale infrastructure projects with institutional investors worldwide, focusing on projects which are not publicly tendered.

Our approach is unique in the market. We combine an artificial intelligence driven database with personal contacts on site all over the world and offer three closely connected services: deal sourcing, the development of portfolio ideas and finding syndication partners. By doing so, we are opening-up a new business model which perfectly complements the infrastructure investment value chain.

Currently, our database includes 540+ projects with a total value of USD 230 billion. Single projects usually start at a volume of USD 100 million. Many projects meet the criteria of a sustainable investment.

We are looking for a **Head of Portfolio Composition** (m/f/d) as late co-founder and shareholder, who is responsible for building and leading a team of financial analysts.

What you'll be responsible for

- Fundamental and risk analyses of infrastructure projects
- Develop convincing infrastructure portfolio ideas
- Build and lead a team of financial analysts
- Contribute to presentations and publications on projects and markets, e. g. for clients or media
- Participate in the preparation of client negotiations
- Interact with local infrastructure project initiators
- Deal structuring

About you

- Experienced in financial and risk analysis of companies and / or projects
- Ideally, buy- or sell-side experience and portfolio management background
- Driven by entrepreneurial spirit: As a core team member and late co-founder the Head of Portfolio Composition is – like all members of our core team – required to acquire a stake in our company
- Experience in infrastructure projects would be a big asset
- Expertise in contributing to presentations and publications, e. g. market white papers
- Academic education
- Team player and hands-on “can-doer” with sense of responsibility and strong interpersonal skills

Our offer

- A dynamic startup atmosphere with plenty of room for own ideas
- A team spread across all continents with highly diverse backgrounds
- Short communication and decision-making channels, cooperative and committed colleagues
- A success-based compensation model incl. Employee Stock Ownership Plan (ESOP)
- Full flexibility in choosing your work location

Excited about the offer?

We look forward to receiving your application to Ms. Tsion Keno, keno@deutsche-infrastructure.net.
